SPACECRAFTT

ARCHITECTS

ABOUT US.

Spacecraftt Architects is a multidisciplinary architecture and interior design practice based in Kolhapur, Maharashtra, established in 2000. Over 26+ years, the practice has developed a diverse portfolio spanning residential, mass housing, hospitality, institutional, commercial and interior projects.

Our approach brings together contextual understanding, thoughtful planning and design, with a focus on creating functional, enduring and distinctive spaces.

OUR WORK.

WE HAVE A DIVERSE PORTFOLIO, RANGING FROM LARGE SCALE DEVELOPMENTS TO INDIVIDUAL HOMES.

WE HAVE BEEN WORKING ACROSS THE FOLLOWING SECTORS :

MASS HOUSING.

PRIVATE RESIDENCES.

RESIDENTIAL APARTMENTS.

COMMERCIAL.

FARMHOUSES.

ROW HOUSING.

HOSPITALITY & INSTITUTIONAL.

BESPOKE INTERIORS.

MASS HOUSING.

Thoughtful planning, shared spaces and a strong sense of place shape our approach to mass housing. Every level of design is carefully considered, from overall zoning and building orientation to the planning of each individual flat, creating balanced, functional and harmonious living environments.

PRIVATE RESIDENCES.

Residences are personal expressions shaped by lifestyle, context, light, material and detail. Each home is thoughtfully planned from the very beginning, responding to its site, orientation, spatial requirements and the way its occupants live, creating spaces that are harmonious, functional and deeply personal.

APARTMENTS.

Thoughtful apartment planning brings together efficiency, functionality and everyday comfort. Every flat is individually designed to respond to the developer's requirements while addressing the needs of contemporary living.

ROW HOUSING.

Row housing calls for intelligent planning within compact footprints, making every square metre count. We focus on efficient layouts, privacy, natural light and ventilation to create comfortable homes without compromising functionality.

FARMHOUSES.

Our farmhouses are conceived as a seamless connection between architecture and the landscape, shaped around the way each property is meant to be experienced. The landscape is designed by us alongside the architecture, responding to the site, lifestyle and specific needs of each client.

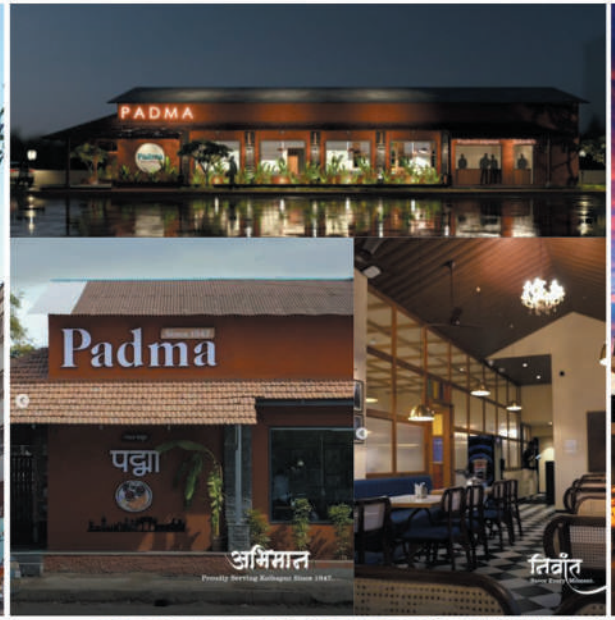

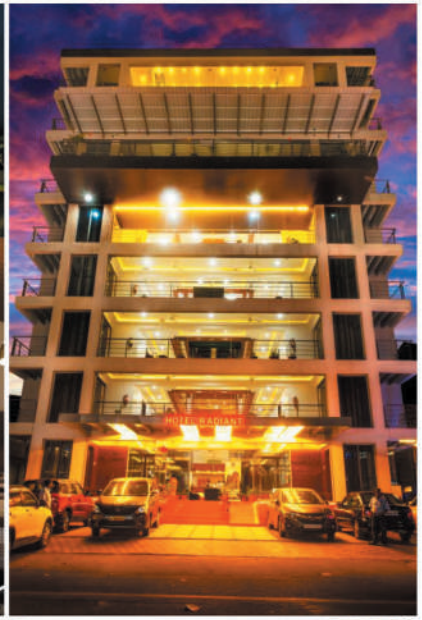

HOSPITALITY & INSTITUTIONAL.

From hospitality to institutional spaces, our designs are shaped around the people who use them and the purpose they serve. With extensive experience designing hotels across Kolhapur, we create functional, welcoming and context-responsive environments that balance operational needs with a distinct architectural identity.

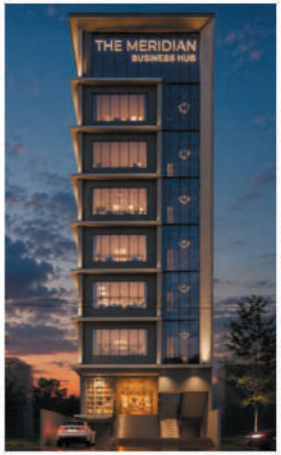

COMMERCIAL.

Commercial spaces are designed to balance business objectives with a strong architectural identity. Our approach focuses on functionality, visibility, efficient planning and user experience, creating spaces that are both purposeful and distinctive.

BESPOKE INTERIORS.

Every interior is an expression of its occupant, shaped by their lifestyle, preferences and aspirations. Our bespoke interiors bring together thoughtful planning, materiality and detailing to create spaces that feel personal, refined and enduring.

AWARDS & PUBLICATIONS.

Over the years, our work has received recognition and been featured across various design platforms and publications. These acknowledgements reflect our continued pursuit of thoughtful architecture, contextual design and meaningful spaces. Each recognition is a milestone in our journey, reinforcing our commitment to design excellence and a practice that continues to evolve. From project features to professional accolades, these moments have helped shape and strengthen our design philosophy. They inspire us to continue exploring new ideas while remaining grounded in the principles of functionality, context and enduring design.

AWARDS & PUBLICATIONS.

Our work has been recognised through awards that celebrate design excellence, innovation and a thoughtful response to context. Each accolade represents a meaningful milestone in our journey, acknowledging the vision, process and attention to detail behind the spaces we create.
